INDEX TO VOLUME 65

ARTICLES AND SPECIAL FEATURES

A Nonpragmatic Vindication of Probabilism, JAMES M. JOYCE D–575
A Reply to Jones, DANIEL STEEL ... D–682
Alternative Combining Operations in Extensive Measurement, DRAGANA BOZIN M–136
Comment on "The Structure of a Scientific Paper" by Frederick Suppe, ALLAN FRANKLIN and COLIN HOWSON..... S–411
Contrastive, Non-Probabilistic Statistical Explanations, BRUCE GLYMOUR S–448
Critical Notice: D.H. Mellor, *The Facts of Causation*, PHIL DOWE M–162
Discussion: Healey on the Aharonov-Bohm Effect, TIM MAUDLIN... J–361
Epsilon-Ergodicity and the Success of Equilibrium Statistical Mechanics, PETER B. M. VRANAS..... D–688
Frank Sulloway's *Born to Rebel*, MIRIAM SOLOMON..... M–171
Game Theoretic Explanations and the Evolution of Justice, JUSTIN D'ARMS, ROBERT BATTERMAN, and KRZYZSTOF GÓRNY..... M–76
Genes, Behavior, and Developmental Emergentism: One Process, Indivisible?, KENNETH F. SCHAFFNER..... J–209
Index to Volume 65 ..... D–000
Laws and Dispositions, ANDREAS HÜTTEMANN M–121
Lewis, Thau, and Hall on Chance and the Best-System Account of Law, JOHN F. HALPIN..... J–349
Maternal Effects: On Dennett and *Darwin's Dangerous Idea*, PETER GODFREY-SMITH D–709
Model Organisms and Behavioral Genetics: A Rejoinder, KENNETH F. SCHAFFNER J–276
Models, Confirmation, and Chaos, JEFFREY KOPERSKI..... D–624
Nonseparability and Quantum Chaos, FREDERICK M. KRONZ M–50
On Huggett and Weingard's Review of *An Interpretive Introduction to Quantum Field Theory*: Continuing the Discussion, PAUL TELLER..... M–151
Pluralism, Logical Empiricism, and the Problem of Pseudoscience, GEORGE A. REISCH..... J–333
Ramsey Sentences and the Meaning of Quantifiers, JAAKKO HINTIKKA..... J–289
Referees for *Philosophy of Science* D–733
Reply to Commentators, FREDERICK SUPPE..... S–417
Simple Systems and Phylogenetic Diversity, WILLIAM C. WIMSATT J–267
Some Relativistic and Higher Order Supertasks, JON PÉREZ LARAUDOGOITIA..... S–502
Species Pluralism and Anti-Realism, MARC ERESHEFSKY M–103
Subjunctive Conditionals and Revealed Preference, BRIAN SKYRMS..... D–545
The Best Explanation of a Scientific Paper, PETER LIPTON..... S–406
The Common Cause Principle in Historical Linguistics, CHRISTOPHER HITCHCOCK..... S–425
The Flight to Reference, or How *Not* to Make Progress in the Philosophy of Science, MICHAEL A. BISHOP and STEPHEN P. STICH..... M–33
The Moon Illusion, FRANCES EGAN D–604
The Structure of a Scientific Paper, FREDERICK SUPPE S–381

The Trouble with Superselection Accounts of Measurement, MARIAM THALOS S–518
The Use of Information Theory in Epistemology, WILLIAM F. HARMS S–472
Understanding Science: Why Causes Are Not Enough, RUTH BERGER J–306
Unification, Deduction, and History: A Reply to Steel, TODD JONES D–672
Warfare and Western Manufactures: A Case Study of Explanation in Anthropology, DANIEL STEEL D–649
What is the Developmentalist Challenge?, PAUL E. GRIFFITHS and ROBIN D. KNIGHT J–253
What Went Wrong? Reflections on Science by Observation and *The Bell Curve*, CLARK GLYMOUR M–1
Why Equilibrium Statistical Mechanics Works: Universality and the Renormalization Group, ROBERT W. BATTERMAN J–183
Wormwholes: A Commentary on K. F. Schaffner's "Genes, Behavior, and Developmental Emergentism", SCOTT F. GILBERT and ERIK M. JORGENSEN J–259

AUTHORS

ROBERT W. BATTERMAN, Why Equilibrium Statistical Mechanics Works: Universality and the Renormalization Group J–183
ROBERT BATTERMAN, JUSTIN D'ARMS, and KRZYZSTOF GÓRNY, Game Theoretic Explanations and the Evolution of Justice M–76
RUTH BERGER, Understanding Science: Why Causes Are Not Enough J–306
MICHAEL A. BISHOP and STEPHEN P. STICH The Flight to Reference, or How *Not* to Make Progress in the Philosophy of Science M–33
DRAGANA BOZIN, Alternative Combining Operations in Extensive Measurement M–136
JUSTIN D'ARMS, ROBERT BATTERMAN, and KRZYZSTOF GÓRNY, Game Theoretic Explanations and the Evolution of Justice ... M–76
PHIL DOWE, Critical Notice: D.H. Mellor, *The Facts of Causation* M–162
FRANCES EGAN, The Moon Illusion D–604
MARC ERESHEFSKY, Species Pluralism and Anti-Realism M–103
ALLAN FRANKLIN and COLIN HOWSON, Comment on "The Structure of a Scientific Paper" by Frederick Suppe S–411
SCOTT F. GILBERT and ERIK M. JORGENSEN, Wormwholes: A Commentary on K. F. Schaffner's "Genes, Behavior, and Developmental Emergentism" J–259
BRUCE GLYMOUR, Contrastive, Non-Probabilistic Statistical Explanations S–448
CLARK GLYMOUR, What Went Wrong? Reflections on Science by Observation and *The Bell Curve* M–1
PETER GODFREY-SMITH, Maternal Effects: On Dennett and *Darwin's Dangerous Idea* D–709
KRZYZSTOF GÓRNY, JUSTIN D'ARMS, and ROBERT BATTERMAN, Game Theoretic Explanations and the Evolution of Justice M–76
PAUL E. GRIFFITHS and ROBIN D. KNIGHT, What is the Developmentalist Challenge? J–253
JOHN F. HALPIN Lewis, Thau, and Hall on Chance and the Best-System Account of Law J–349

WILLIAM F. HARMS, The Use of Information Theory in Epistemology S–472
JAAKKO HINTIKKA, Ramsey Sentences and the Meaning of Quantifiers J–289
CHRISTOPHER HITCHCOCK, The Common Cause Principle in Historical Linguistics S–425
COLIN HOWSON and ALLAN FRANKLIN, Comment on "The Structure of a Scientific Paper" by Frederick Suppe S–411
ANDREAS HÜTTEMANN, Laws and Dispositions M–121
TODD JONES, Unification, Deduction, and History: A Reply to Steel D–672
ERIK M. JORGENSEN and SCOTT F. GILBERT, Wormwholes: A Commentary on K. F. Schaffner's "Genes, Behavior, and Developmental Emergentism" J–259
JAMES M. JOYCE, A Nonpragmatic Vindication of Probabilism D–575
ROBIN D. KNIGHT and PAUL E. GRIFFITHS, What is the Developmentalist Challenge? J–253
JEFFREY KOPERSKI, Models, Confirmation, and Chaos D–624
FREDERICK M. KRONZ, Nonseparability and Quantum Chaos ... M–50
PETER LIPTON, The Best Explanation of a Scientific Paper S–406
TIM MAUDLIN, Discussion: Healey on the Aharonov-Bohm Effect J–361
JON PÉREZ LARAUDOGOITIA, Some Relativistic and Higher Order Supertasks S–502
GEORGE A. REISCH, Pluralism, Logical Empiricism, and the Problem of Pseudoscience J–333
KENNETH F. SCHAFFNER, Genes, Behavior, and Developmental Emergentism: One Process, Indivisible? J–209
KENNETH F. SCHAFFNER, Model Organisms and Behavioral Genetics: A Rejoinder J–276
BRIAN SKYRMS, Subjunctive Conditionals and Revealed Preference D–545
MIRIAM SOLOMON, Frank Sulloway's *Born to Rebel* M–171
